Morristown, Feb. 22 (Special).—The annual meetng of the Washington Association of New-Jersey held to-day was by far the most interesting and successful one ever held. The members and guests began to arrive before 12 o'clock and long before 1:30 the large hall in the new annex building was filled to overflowing. A luncheon was served at which was a miniature cherry tree loaded with cherries and a figure of Washington standing by with the bistorical hatchet in his hand. The cherries were given to the guests as boutonnières, together with batchets and flags. After this the new building was formally opened and turned over to the association by the president, Jonathan W. Roberts. The room was filled by prominent Jerseymen

from all parts of the State. A resolution was read by the president, which had been passed by the Board of Directors, that the limit of membership should be placed at 500. There are now 460 members. Charlton T. Lewis was the speaker of the day. "On May 5, 1780," he said, "a very peculiar scene was witnessed in the building which we have just left. May 5, 1780," he said, "a very peculiar scene was witnessed in the building which we have just left. For the only time, or almost the only time on record, George Washington was moved to tears. And what was the cause? It was the reception of a letter from the Marquis de Lafayette saying that he would soon be with him with imperiant news for the patriots of America. Three days later the Marquis arrived with the news that the French Government had decided to in our a free to come to the assistance of the United States." Mr. Lewis paid a glowing tribute to Lafayette and gave a brief necount of the circumstances which led him to come to America.

Among those present at the opening of the new hall of the association were Vice-Chanceller John R. Emery, the Rev. Dr. James M. Euckley, Ellas B. Ward, Judge J. Frank Fort, the Rev. Dr. Prazer, Frederick Nishwitz, J. O. H. Pinney, Levi C. Latrop, John S. Gibson, Colonel E. L. Dobbins, Dr. B. D. Levans, George W. Maynard, Judge William J. Magie, George H. Kennedy, George G. Kip, Paul Revere and Vice-Chanceller H. C. Pitney.

The place has no water and, besides, is without a fire department. The fire was in the main street, and for a time it looked as if the town would be wheel out. Word was sent to Phillipsburg for aid, and a steamer with a big line of hose arrived and put out the fames. The postoffice, the general store of P. S. SHE ATTACKED THEM WITH A POKER. A SERVANT GIRL SURPRISES TWO BURGLARS AND DRIVES THEM AWAY.

Hackensack, Feb. 22 (Special).—Mary Minot, a servant in the employ of J. J. Hague, at Oradell, had a thrilling experience with two burglars last night. The girl was left in care of the house with a little boy while the family was attending evening funeral services over the body of a relative's child that had been drowned. She heard the men in a room upstairs, and arming herself with a stove poker she crept up softly, followed by the child. Bursting she crept up softly, followed by the child. Bursting suddenly into the room, she surprised the men rummaging through a dressing case and scattering the contents over the floor. Raising her poker the girl rushed at the robbers, crying. "Surrender!" but before she could strike a blow she was sent sprawling across the room by a blow from one of the thieves. The other one pushed the child over as he ran from the room and downstairs, followed by his comrade. The girl gave the alarm and a number of men went in search, but the thieves escaped. They secured only a few trinkets of little value.

A PRETTY ICE-YACHT RACE. THE NORTH SHREWSBURY RIVER CLUB'S THIRD-

Red Bank, N. J., Feb. 22 (Special).-An interesting ice-yacht race was sailed here this afternoon under the auspices of the North Shrewsbury River Club. The prize consisted of a cup given by Commodore Samuel W. Morford. The wind, which blew from the westward, was fair, but the ice was porous on top and the sharp runners of the boat cut through time, however, was remarkably fast. The regular club triangular course was sailed over three times. This course is about two and one-half miles long,

but owing to the windward work required, the yachts easily covered a distance of twelve miles. The starters were Charles Burd's Zip, Edward F. Asay's Daisy, Frank Payne's Snowbird and Joseph Burrowes's Fivaway. They are all third-rate boats and lateen rigged with the exception of the Daisy.

and lateen rigged with the exception of the Daisy, which is sloop-rigged.

The boats went down the river in a bunch. Off Patterson's cove the Zip took the lead, closely followed by the Daisy. At this point the Snowbird upset and was soon afterward withdrawn. The Daisy also upset just as she was completing the second round, but she was quickly righted and the yacht went on her way.

The Zip proved herself a wonderful flyer by salling the race in twenty-four minutes. The Daisy finished four minutes later and the Flyaway was a bad third. The later boat would have sailed better had her captain understood lee-yacht sailing.

A pennant race is scheduled for Monday afternoon, and it is probable that the larger yachts of the fleet will also sail.

FARMER RUN DOWN BY A TRAIN. New-Brunswick, Feb. 22 .- John J. Davison, a wellto-do farmer of Franklin Park, died in the hospital here to-day from injuries received by being struck here to-day from injuries received by being struck by a train. Davison left this city last night on the \$:23 train over the Pennsylvania Railroad to visit some relatives in Deans. It is said he was slightly intoxicated. EDWIN A. STEVENS, HOBOKEN'S FORE-MOST CITIZEN.

A DESCENDANT OF THE FOUNDER OF THAT TOWN, HE IS KNOWN FOR HIS DUSINESS ABILITY, RIS LOVE OF MECHANICS AND HIS DEMOCRATIC TENDENCIES.

The Stevens family, which founded Hoboken in Revolutionary days, has produced many men of ability and enterprise. Colonel Edwin A. Stevens, the present head of the family, inherited these charcieristics with the fortune which has made hi name a synonyme for great enterprises in his part of New-Jersey. He will be thirty-eight years old on the 14th day of next month. He is president of the Hoboken Land and Improvement Company and of the Hoboken Ferry Company. Mr. Stevens inherited a natural bent for mechanical engineering, and he is a draughtsman of no mean ability. He invented many appliances in machinery which are now in general use. He designed the screw ferryboat, the Bergen, the first of his type ever used on the Hudson. He is a hard worker and seldom misses a day from his office in the Hoboken Land and Improvement Company's Building, near the lower Hoboken ferries. This close attention to business has resulted in slightly undermining his health, in consequence of which he was obliged to take a vacation and is now enjoying a cruise on his trother Richard's steam yacht the Alleen in trop-

THE FIRE FIEND SEVERELY MENACED UNPROTECTED JERSEY TOWNS.

Flemington, Feb. 22.—Fire at Junction, Hunterdon County, last night burned the dwelling of Samuel Case, the drygoods store and barn belonging to Deats Shirts, the clothing store owned by William Bunley, the barber shop of Samuel Hack and the large new postoffice belonging to Peter Schenck. The town is without a fire department, and the flames were fought with buckets. The fire started to the electrons store and was caused by the example of machiners, or listening attentively to the views of his more humble commades. a piece of machinery, or listening attentively to the views of his more humble comrades. He is popular among the workingmen, and may often be seen swinging along the lower part of Hoboken in a gait peculiarly his own, smoking a pipe apparently in the utmost contentment.

Mrs. Martha B. Sievens, his mother, is the leading apirit in the Industrial School for Manual Training, the Memorial Day Nursery and several Riwired institutions in Hoboken.

Many destitute fraulies received all from the Sievens purse and nobody was the wiser. Beggars and unworthy applicants for alms, knowing that Mr. Stevens is eachly approached, haunt his office and lay in wait for him outside to tell their tales of wee. With his assistance the Stevens institute of Technology has become one of the leading schools of mechanical engineering in the United States. The institute was founded by his father, and the son's connection with it has undoubtedly stimulated his mind in pursuing the practical study of engineering.

Mr. Stevens was an elector on the Democratic National ticket in 1838 and in 1892, and has been a member of the Democratic State Committee. In 1834 he was nominated for Congress, but was defeated by Thomas McEwan in a Republican landslide, Mr. Stevens is now a retired officer of the old 2d Regiment, N. G. N. J. was a scientific exhibition of the game, and brough out some brilliant play on both sides. The True Blues were the favorites, but the first half saw them in the rear by one goal. Play, however, was very even, and it was a lucky shot by Grundy which put the Internationals ahead

In the second half the play was almost continually in International territory, Patricks, Taylor and Stubbs worked hard for the New-Yorkers, but their efforts were unavailing, and it was not long before their lead was passed. Spencer shot the first goal for the "Blues," and this was quickly followed by goals by Lauter and Grewcock. The majority of the spectators were delighted, and when the referee's whistle finally blow, and the True Blues were left victorious by three goals to one, all went on their way rejoicing.

UNIONS, 5; CALEDONIANS, 4.

The two old rivals for football honors in Kearny Township, the Caledonians and the old Union Athletic Association, came together yesterday afternoon for the local championship. The wind was high, and, the Caledonians securing its favor in the first half, made four goals. In the second half the advantages were reversed, and the Unions hade five goals, winning the game.
